## About the Brain Injury Association of the Ottawa Valley (BIAOV)

---

### Mission Statement

The Mission is to offer education, information, hope and support to persons with brain injury, their family members, friends, caregivers and professionals in the Ottawa Valley region.

The BIAOV is a 100% volunteer-run grassroots organization

The Association assists those who live with the effects of brain injury by providing education, information, support and advocacy. The Association advocates dignity, respect, inclusion and understanding for all.

### The BIAOV's Impact

---

The BIAOV supports brain injury survivors and their families through a variety of programs, activities, and events. One example is The Step-Up Program.

### The Step Up Work Centre Program

“After coming here, when I see people, when I talk to them, share the same experiences they've had, I go home happy.”

- Anderson, BIAOV  
Member

Step Up is a member directed program that helps survivors learn valuable skills while giving them a sense of purpose. More than that though, their work also helps keep the BIAOV running smoothly.

Step Up provides members with:

- skill acquisition
- structured workday
- reception skills
- correspondence
- kitchen skills

Members engage in different workstations based on need and interest. And because the program is member-directed, it really is their place, their space.

Step Up is but one of many programs offered by the BIAOV. Please visit [their website](#) to learn more about the BIAOV and their excellent programming.
